2. Work

Collected the papers related with statistical chart in our group's published papers and add them into the survey citation.

Revised LargeVis and made it can compare with our projects in the same conditions. Besides, collected all the results of LargeVis and ours.

I finished the clustering and community detection parts last week. I collaborated with Jiacheng, Yuhui, Rusheng and I wrote the introduction parts of the master thesis. We will complete this thesis as soon as possible.
